PROFILE

Applied Information Technology graduate with hands-on skills in full-stack web development using JavaScript, TypeScript, React, Node.js, Express.js, and MongoDB. Skilled in frontend and backend development, REST API integration, JWT authentication, role-based access control, and Git version control. Focused on writing maintainable code and building responsive, user-friendly web applications. Seeking an internship or entry-level role in software engineering, full-stack development, or web development to apply technical skills, solve real-world problems, and grow within an engineering team.

EDUCATION

- SLTC Research University (2023 - 2026)
  Bachelor of Applied Information Technology
  Graduated | GPA 3.61 | Second Class Upper Division

- V / Agrabodhi M.V (school) (2007-2021)
  GCE Advanced Level (C1 / S2)
  GCE Ordinary Level (A6 / B3)

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, SQL, HTML, CSS, SCSS

Web Stack: React, Node.js, Express.js, Angular, Spring Boot, Tailwind CSS, Bootstrap

Databases: MongoDB, MongoDB Atlas, MySQL

Tools: Git, GitHub, VS Code, Postman, IntelliJ IDEA, MySQL Workbench, Vite

Web Development: REST APIs, JWT, OAuth 2.0, React Router, Axios, GitHub Pages, Render

Academic foundations : Operating systems, networking, information security, IT quality control, cloud computing, data science, business intelligence and data visualization

---

PROJECTS

- **Hela Eats Recipe to Cart Platform (Jan 2026 - June 2026)**

Contribution: Frontend Developer | Final Year Team Project

- Built a React 19 and TypeScript single-page application with 29 pages that converts Sri Lankan recipes into portioned, priced grocery carts.
- Implemented frontend role-based access control (RBAC) for Customer, Admin, and Vendor routes, with JWT session persistence using AuthContext and a custom useAuth hook.
- Integrated 13 API service modules and three-layer error handling using Axios interceptors, an apiError parser, and toast notifications.

Live: 🔗 Hela Eats live site | **Code github repository**: 🔗 Hela Eats front-end

- **Zovex MERN Ecommerce Platform (March 2026 - May 2026)**

Contribution: Full Stack Developer

- Developed the React, Node.js, Express, and MongoDB marketplace with Customer, Seller, and Admin access; implemented Google OAuth and JWT authentication.
- Integrated Stripe Checkout with session-based payment confirmation, Cloudinary product uploads, and Gmail API order confirmation emails.
- Built seller inventory, fulfillment, and review tools plus admin user, role, category, and analytics dashboards; deployed the frontend on GitHub Pages and backend on Render.

Live: zovex live site | **Code github repositories**: zovex front-end | zovex back-end

- **Zero Waste Cafe Responsive Restaurant Website (October 2026 - October 2026)**

Contribution: Web Developer

- Built a responsive HTML, CSS and JavaScript website for a startup cafe using Flexbox, Grid, media queries, and reusable CSS variables.
- Implemented interactive menu filtering and WhatsApp table reservations without a backend.

Live: zero waste cafe live site | **Code github repositories**: zero waste cafe front-end

---

ADDITIONAL TRAINING

- Industrial Training Program in Full Stack Software Development (Diploma) - *Developers Stack Institute*
  (Fulfilling Full-stack Software Development Requirements of Software Engineering)

- KodeKloud Engineer Git Level 1 - *KodeKloud*
  (covered git basics) - Certificate: Git - Level 1 certificate

- Python for Beginners - *University of Moratuwa*
  (covered Python basics) - Credentials : Jht1CgtiXo | verify credentials: verify_certificate-UOM

- Information and Communication Technology Technician - *National Youth Services*
  (six-month course covered basic and intermediate IT skills)
